Approval Rubric

- Case studies are complete and error free; AND

- Images are high quality, clearly labeled, and adequately explained; AND

- Links to GitHub repositories, Tableau Public, and all other supporting documents and videos have been included

Next Steps

- Include tableau link, presentation links and related resources for each project
- Check for a few charts with missing elements
1. Improve your Github to showcase your code and portfolio activities. Take hints here: https://sarah-hart-landolt.medium.com/6-easy-steps-to-create-a-beautiful-github-profile-readme-edc7840b2c7
2. Note you can always adapt the arrangement of your projects to suit different industries when applying for jobs.
3. Continue to develop your portfolio projects. Consistent practice and exploration will significantly improve your skills.
